THE SULTAN YIELDS.

ADMIRAL NOEL'S ULTIMATUM WILL PREVAIL IN CRETE.

Djevad Pasha Instructed to Disarm British Military Detachment Occupies the Entrance to the Fort. Prisoners Handed Over.

ASSOCIATED PRESS NIGHT REPORT.

CANDIA (island of Crete). Sept. 18.—[By Atlantic Cable.] The Sultan has ordered Djevad Pasha, the military commander in Crete, to accede to the demand of the British "admiral," Henry Noel, for disarmament, thus complying with the whole ultimatum of the admiral. A British military detachment today occupied the entrance to the fort, and it is rumored that the Ottoman troops will be withdrawn and a British force will occupy the town.

Among the prisoners already handed over to Admiral Noel are two who are credited with being the ringleaders in the attack on the British camp.

France Making Up.

LONDON. Sept. 18.—From Cairo and from an entirely independent source the Daily Mail learns that France has assumed a conciliatory attitude toward Great Britain and has agreed that the expedition of Maj. Marchand is quite unofficial. The Sirdar will offer to take Maj. Marchand to Cairo, and it is probable that the major will accept, and that Pashoda will be occupied by British troops.

At New York Hotels.

NEW YORK. Sept. 18.—[Exclusive Dispatch.] H. Hornbostel is at the St. Denis; E. M. Lyon of Redlands is at the Murray Hill.

SPY ON SPIES.

Latest Version of the Dreyfus Case.

The Officer Was Employed by a Secret Department.

That's How He Rubbed Against Rubber-neck Clam.

Council Meeting Held at Paris Discusses the Proposition of a Revision—Faure Called Down—The Disclosures of Esterhazy.

[ASSOCIATED PRESS NIGHT REPORT.]

PARIS, Sept. 19.—[By Atlantic Cable.] Le Soir says Gen. Chanoine, the newly-appointed War Minister, told friends that he regarded himself as a sentinel, relieving another charged with watching over the army's rights, and intimating that he was appointed by the Cabinet, and he was not responsible in the decisions of the council.

The article states in effect that Dreyfus was engaged as a spy in the employ of a secret department of the French army, against those suspected of trafficking with Germany and other powers. His zeal, so the story goes, led him to become the victim of revenge on the part of Col. Henry, Comte Esterhazy and Col. Paty du Clam, who themselves were concerned in treasonable practices.

YESTERDAY'S COUNCIL MEET.

[ASSOCIATED PRESS NIGHT REPORT.]

PARIS, Sept. 19.—At the opening of the council today, M. Sarrien, Minister of Justice, stated his views of the case at considerable length, expressing his conviction that a revision was necessary for the peace of the country, and expedient on the ground that many of the documents in the Dossier appeared to be of doubtful authenticity, and, above all, that Col. Henry's admission of forgery threw suspicion upon all his evidence. M. Sarrien, however, did not ask the council to decide for or against revision, but only asked permission to submit the matter to a commission.

M. Faure opened the discussion. He did not openly oppose a revision, but pointed out political and other objections to the reopening of the case.

It is said that M. Brisson went so far as to remind M. Faure of the constitutional limits to his functions.

Finally a division occurred, in which M. Faure did not take part.

The decision of the committee appointed to consider the matter of the revision will be in no way binding upon the Cabinet, which still will have to decide the actual question of revision. It is reported, however, that a vessel has already started for the Isle du Diable in readiness to bring Dreyfus to Paris, and M. Brisson and Gen. Chanoine are determined that nobody, whatever his position, will be sheltered. Stirring events are regarded as pending.

Gen. Zurlinden is credited with the belief that there is a Picquart mystery, and it is believed that he fully intended Picquart should be prosecuted. According to Col. Picquart's written statement to the Minister of Justice, four secret documents were submitted to the court-martial held in 1894 behind the backs of Dreyfus and his counsel.

ESTERHAZY TO CONFESS.

He Will Show That Six Hundred Papers Were Forged.

[BY DIRECT WIRE TO THE TIMES.]

LONDON, Sept. 18.—[Exclusive Dispatch.] Maj. Count Esterhazy, who is about to make a full confession of his connection with the plot to disgrace Dreyfus, said tonight:

EXCITING TIME ON A TRAIN TO COUNCIL BLUFFS.

Conductor Morris Gets a Bullet in the Neck and is Robbed of the Treasure in His Pockets—Passengers Also Maimed.

[ASSOCIATED PRESS NIGHT REPORT.]

CHICAGO, Sept. 18.—A dispatch to the Times-Herald from Council Bluffs, Iowa, says three men held up a Lake Winona Railway train returning from the lake to Council Bluffs this evening. The robbers boarded the train at the lake, and when about half-way in they drew revolvers on Conductor Morris and ordered him to throw up his hands. He grappled with one of the men, and the other fired. The ball grazed the conductor's neck, inflicting a slight wound. He was overpowered and his pockets searched, the robbers getting less than \$100.

While two of the robbers held the conductor on the rear seat, the other went through the car, which was but partly filled, and robbed the passengers of small sums. The robbers jumped off and started across the bottoms in the direction of Omaha.

VESSEL FOR HIM.

[BY DIRECT WIRE TO THE TIMES.]

LONDON, Sept. 18.—[Exclusive Dispatch.] A dispatch from Paris says the reported vessel La Coelle has started for Devil's Island with a view to return Dreyfus to France.

GOOD AS A PLAY.

[BY DIRECT WIRE TO THE TIMES.]

LONDON, Sept. 18.—[Exclusive Dispatch.]

patch] George R. Sims, playwright and journalist, has long maintained that Dreyfus was rescued from Devil's Island two years ago through the instrumentality of a French syndicate organized to secure the liberation of prisoners from penal settlements who can pay heavily for their freedom. Sims now says:

"The real difficulty the French government is in with regard to Dreyfus is to find him. When he was rescued from Devil's Island two years ago and a substitute was left in his place, the government officials, terrified at the outcry which would be raised in France, accepted the substitute.

"Dreyfus himself went to South America, where he is living under an assumed name. His wife dares not quit France to join him; that would mean a plot for his rearrest or assassination. Dreyfus does not yet feel sufficient confidence in the authorities and the French people to put his head in the lion's den. If Dreyfus ever returns to take a new trial he may be sure an acquittal will have been absolutely guaranteed beforehand."

A GREAT HEAD.

Gen. Chanoine Discovers That He's Only a Sentinel.

[ASSOCIATED PRESS NIGHT REPORT.]

PARIS, Sept. 19.—[By Atlantic Cable.] Le Soir says Gen. Chanoine, the newly-appointed War Minister, told friends that he regarded himself as a sentinel, relieving another charged with watching over the army's rights, and intimating that he was appointed by the Cabinet, and he was not responsible in the decisions of the council.

WAR OFFICER OPPOSED.

[ASSOCIATED PRESS NIGHT REPORT.]

PARIS, Sept. 19.—The difficulties attendant upon securing a revision of the Dreyfus proceedings is gauged from the story now published, that Gen. Zurlinden practically offered himself by advocating a revision of the Dreyfus case and that his change of opinion is due to the strong feeling which he afterward found among his subordinates at the War Office.

ODD FELLOWS' OUTING.

[BOSTON ENTERTAINING SOVEREIGN GRAND LODGE DELEGATES.]

Week of Business and Pleasure in the Old Bay State—Yesterday Passed in Church-going and Sight-seeing—Wednesday's Parade.

[ASSOCIATED PRESS NIGHT REPORT.]

BOSTON, Sept. 18.—With the coming of the morrow, the Odd-Fellows of the United States will own this city. They have come as the representatives to the Sovereign Grand Lodge and incidentally to enjoy a week of pleasure under the direction of the Grand Lodge of Massachusetts. Practically all the Grand-Lodge representatives are preparing for the opening sessions. Today the visitors spent the time chiefly in sight-seeing, although the Sovereign Lodge attended divine service at the Church of the Disciples, where Rev. Dr. Everett Hale preached on the "Universal Brotherhood of Man," and delegations attended several other churches, where the services had a bearing on the events of the coming week.

The Rebekahs will also figure in the early ceremonies. While a programme has been arranged for each day, that of Wednesday is the chief figure. The parade will be held then, and 15,000 are expected to be in line.

A CHEERFUL PROSPECT.

[SPANISH PEACE COMMISSION WILL CLAIM THE PHILIPPINES.]

Sagasta and Rios Talk the Matter Over and Arrive at the Decision That Such Policy Shall Be Strenuously Maintained at Paris.

[ASSOCIATED PRESS NIGHT REPORT.]

LONDON, Sept. 18.—[By Atlantic Cable.] The Daily Mail's London correspondent says long conference was held between Señor Sagasta and Monseñor Rios, the president of the Spanish Peace Commission, today, which resulted in the decision that the Peace Commission shall strenuously defend the retention of the Philippine Islands by Spain.

OFFICIALLY PROCLAIMED.

[ASSOCIATED PRESS NIGHT REPORT.]

MADRID, Sept. 18.—The Official Gazette publishes the announcement of the appointment of Se

CALIFORNIA GUARD.

GEN. WARFIELD TO SUPERVISE THE REORGANIZATION.

Another First Regiment in Formation at San Francisco to Succeed That at Manila.

BARRACKS AT THE PRESIDIO.

GEN. MILLER FAVORS SUBSTITUTION OF THEM FOR TENTS.

Transport Condor Leaves for Manila. Capt. Capron Dead—Cincinnatian People Preparing to Welcome the Sixth Infantry.

[ASSOCIATED PRESS NIGHT REPORT.]

SAN FRANCISCO, Sept. 18.—The National Guard of California is to be reorganized immediately, a regiment to be known as the First Infantry Regiment, N.G.C., will be formed in San Francisco, this week to take the place of the one that went to Manila. The work of organization will be under the supervision of Brig.-Gen. R. H. Wardell, and his staff officers.

The new regiment, like the one now in the Philippines, is to have twelve companies. The latter regiment left behind some twenty men from each of its companies, and they are to form a nucleus for the new organization.

BARRACKS FOR TENTS.

[ASSOCIATED PRESS NIGHT REPORT.]

SAN FRANCISCO, Sept. 18.—While Gen. Miller, in command of the Presidio military post, is strongly in favor of substituting substantial barracks for the tents now in use, he will not act in the matter until the return of Gen. Merriman from Honolulu. Without any express appropriation by Congress for the purpose, says Gen. Miller, nothing but temporary structures can be erected for barracks. But even those would be vastly superior to the scant protection against the elements which the tents afford.

The necessity of more careful housing for the troops during the coming winter is made apparent by the increase in the sick list at Camp Merriman. There were nine new cases reported today at the division field hospital, making 318 in all, against 300 when the camp was moved. Among the new cases are two men ill and one suspected typhoid fever case. All of the patients are progressing favorably, and none are reported to be in immediate danger. Gen. Miller has received no advices regarding the movement of troops now here, either to Honolulu or Manila.

FATHER FOLLOWS SON.

Capt. Allyn Capron Crosses the Dark River.

[ASSOCIATED PRESS NIGHT REPORT.]

WASHINGTON, Sept. 18.—Capt. Allyn Capron, First Artillery, died at his home near Fort Myer, Va., today.

Capt. Capron was one of the best-known officers in the regular army. He had devoted himself particularly to the artillery branch of the service, having been an honorary graduate of the artillery school in 1873, and was regarded as an authority on artillery tactics.

When Gen. Shafter's corps went to Santiago, Capron accompanied it and his battery did fine work in the battle of Santiago. During the first day's fighting before the city Capt. Capron's son, Capt. Allyn E. Capron, of the Rough Riders, was killed.

The death of his son preyed upon the father's mind, but he never recovered from an instant from his duty during the terrible days that followed. The seeds of disease were sown in his system during the Cuban campaign, and he returned to his home at Fort Myer, near Washington, to be stricken down with typhoid fever. His death occurred at 12 o'clock today.

Capt. Capron was born in Florida and entered the military academy as a cadet in 1863. After graduating he was made second lieutenant of the First Artillery June 17, 1867, and was an officer of that regiment until his death. He was commissioned as captain December 4, 1888. It is probable that Capt. Capron will be buried in the Arlington National Cemetery, but no definite arrangements for his funeral have yet been made.

AT STERNBERG HOSPITAL.

[ASSOCIATED PRESS NIGHT REPORT.]

CHICAMAUGA, Sept. 18.—There were two deaths at Sternberg Hospital within the twenty-four hours from noon today: A Chevalier, Fourth New York, and William Fowler, Second Arkansas. There were no deaths at Leiter Hospital.

SCATTERING SOLDIERS.

Eight Hundred From Wikoff

Are Being Transferred.

[ASSOCIATED PRESS NIGHT REPORT.]

NEW YORK, Sept. 18.—In all 800 soldiers from Camp Wikoff reached this city today on the transport Chester and the ambulance boat Shinnecock. The troops brought by the Chester being in fair health were placed on the trains in New Jersey and are now on their way to the posts assigned to them in the different parts of the country. The men of the Sixth United States Infantry will do duty at Fort Thomas, at Newport, Ky., and the Tenth United States Infantry is proceeding to Huntsville, Ala. Batteries A and D, First Artillery, will do duty under further orders at Hilton Head, Fort Royal, S. C.

The transfer of the men was rapidly accomplished. When the transport was made fast to pier No. 4, North River, today, several big floats carrying baggage and stores came alongside. The baggage of the soldiers who were on the cars were transferred to the cars, while the members of the two regiments and of the two batteries were loaded on ferry boats.

The Sixth Infantry was sent via the Baltimore and Ohio, and as soon as the train was made fast to the cars were off. The Tenth Regiment, which is traveling via the West Shore Railroad, was handled in exactly the same way. The two batteries were shipped via the Pennsylvania Railroad.

The ambulance ship took 120 sick soldiers to Jersey City, where they were transferred to a hospital train, which was to convey them to Philadelphia. The Shinnecock then crossed the North River and landed 26 sick soldiers and 100 convalescent members of the army, the former belonging to St. Vincent's Hospital and New York Hospital. Among the sick cared for at St. Vincent's Hospital were: Sergt. George L. Lamb, Eighth Ohio; Edward Pugh, Eighth Ohio; Albert Chesley, Thirty-ninth Michigan; W. C. Carman, Eighth Ohio; H. Flint, First District Columbia; Chris Maher, First Illinois; and the Tacon Theater last night there

Charles Haller, Twenty-third Michigan; William Johnson, First Illinois. Among the soldiers conveyed to New York Hospital was Claude Clark, Eighth Ohio.

FOUR DEATHS.

[ASSOCIATED PRESS NIGHT REPORT.]

CAMP WIKOFF, Sept. 18.—There were four deaths at Camp Wikoff today. A soldier named Clark, a recruit in the regiment, was brought to the hospital in the night in an unconscious condition and died today.

Things were quiet at the camp today. A conference was held at Gen. Wheeler's headquarters, at which the colonels of the cavalry division were present. News were exchanged on the arrival of the troops to a new camp in the South, prior to their transportation to Cuba, and all those present were of the opinion that it would be better for their commands to remain at Montauk until the government is ready to ship them to Cuba.

The news was not reported in any way as they left their posts last spring to mobilize for the campaign. Gen. Wheeler will make a report to Gen. Corbin indorsing this view of the case.

The transport Berlin sailed this afternoon, having on board the First, Second, Eighth and Sixteenth Infantry, bound for the Alabama camp. None of the other transports got away tonight.

MILITARY SHIPPING.

[ASSOCIATED PRESS NIGHT REPORT.]

TRANSPORTS Michigan and Ches- ter and Steamer Iris Return.

[ASSOCIATED PRESS NIGHT REPORT.]

NEW YORK, Sept. 18.—The United States transport Michigan arrived this morning from Santiago, from which port she sailed on September 11. The Michigan brought twenty-nine passengers, among whom were Charles T. Baker, assistant quartermaster; Capt. E. Primes of the Cuban army; Surgeons Kennedy and Agramonte and two army clerks. The other passengers were hospital stewards, nurses and laborers. The Michigan was boarded by the health officers here shortly after 6 a.m. and all began to board the transports and the boat in good sanitary condition, she was permitted to proceed. The transport anchored off Liberty Island, awaiting instructions from the Quartermaster's department.

The United States transport arrived this morning at Montauk Point. The United States steamer Iris arrived this morning and anchored off Tompkinsville.

FEVER PATIENTS.

Shipments Being Made From Camp Meade.

[ASSOCIATED PRESS NIGHT REPORT.]

CAMP MEADE (Middletown, Pa.) Sept. 18.—Fifteen typhoid fever cases were shipped from the second division hospital this evening to the Charity Hospital, Norristown, in a special car.

The patients were from the Two Hundred and First and Two Hundred and Second, New York, Fourth Missouri, First Rhode Island and Second West Virginia regiments. Chief Surgeon Girard believes the sick do better in hospitals than in tents, and has arranged to ship more away tomorrow to Harrisburg and Philadelphia hospitals. There are 175 fever patients in the hospitals. They will be taken as rapidly as they can be moved. Private Blston D. Danto, Co. K, Third New York, in charge of the Red Cross hospital today crossed the river, and was shipped to Wellsville. Corp. Samuel Crager, Co. H, Second Tennessee, also died of congestive chills at the regimental dispensary after a brief illness.

Detailed reports have been received by Capt. Girard from the various regimental surgeons on the health of their regiments. They report but very few malarial cases, and in the regiments where this malady has been greatest, it is on the decrease. Most of the cases of typhoid fever and malarial are in the Sixth and Nineteenth United States Infantry. Capt. Fred K. Little, Co. C, Nineteenth United States Infantry, malarial fever.

[Signed.] BROOKE, "Major-general."

A supplemental dispatch from Gen. Brooke reads:

WASHINGTON, Sept. 18.—In dispatches to the War Department to-night, Gen. Brooke reports four deaths among the American troops at Ponce, Porto Rico. His first dispatch follows:

FOUR DEATHS.

Melancholy Register Forwarded by Maj.-Gen. Brooke.

[ASSOCIATED PRESS NIGHT REPORT.]

WASHINGTON, Sept. 18.—The board of survey appointed to discover the Tennessee volunteers responsible for the outrage on the Thomas family has made its report to Gen. Miller. The board reports that it has been unable to discover the names of any of the participants in the plot, except those of the four Tennesseeans, who have been tried by court-martial—Anderson, Davis, Clark and Scruggs.

The following medical officers have been detailed as brigade surgeons:

First Division, First Brigade, D. A. Remond, Seventh Ohio; Second Brigade, M. Johnson, First Missouri; Third Brigade, C. E. Kauss, Eighth Pennsylvania; Second Division, First Brigade, Burton S. Booth, Two Hundred and Third New York; Second Brigade, E. D. Kleeble, Fourth Missouri; Third Brigade, Lester S. Hunt, Fifth Rhode Island.

Abbott of the First Rhode Island is seriously ill with typhoid fever at the home of a friend in Middletown.

The Fifteenth Michigan has moved on the grounds selected for the Ninth Pennsylvania, which starts tomorrow afternoon for its home State for muster out. The Michigan regiment takes the place of the Twelfth in Gen. Corbin's brigade of the First Division.

Chief Quartermaster Howard says the Sixth Michigan, which had received orders to muster out, will hardly get away before Thursday. This will complete, for a while at least, the movement of troops from camp. There is a strong probability that the Fourteenth Pennsylvania will be the next regiment to receive orders to muster out on account of the trouble among the officers.

The following medical officers have been detailed as brigade surgeons:

First Division, First Brigade, D. A. Remond, Seventh Ohio; Second Brigade, M. Johnson, First Missouri; Third Brigade, C. E. Kauss, Eighth Pennsylvania; Second Division, First Brigade, Burton S. Booth, Two Hundred and Third New York; Second Brigade, E. D. Kleeble, Fourth Missouri; Third Brigade, Lester S. Hunt, Fifth Rhode Island.

The camp has become scattered so that the scores of army teams have been forced to work eighteen hours a day. The long hours are telling on the health of the teamsters, and Col. Edward C. Shaffer, of the War Department for seventy-five additional teams. He was advised today that fifteen four-mule teams and ten two-horse teams would be immediately forwarded. The water system is being run into the camp of the First Delaware and other outlying regiments. Gen. Graham will wait until all the regiments have been supplied before extending the system to corps headquarters.

THEY SUFFERED.

Warm Welcome Preparing for a Gallant Regiment.

[ASSOCIATED PRESS NIGHT REPORT.]

CINCINNATI, Sept. 18.—The most elaborate arrangements have been made for the reception of the Sixth Infantry on its return to Fort Thomas tomorrow. Members of the Chamber of Commerce and others went to Parkersburg today to meet the regiment at the State line. This regiment was one of the first called out, and it suffered the most severe losses. Col. Cochran was retired soon after the regiment reached Tampa and Lieut.-Col. Egbert succeeded. When the regiment was cut to pieces at Santiago, Col. Egbert was shot through the lungs, and now lies in a hospital in Fort Thomas. Col. Egbert is here anxiously awaiting the regiment.

Of the 482 who went with this regiment in April less than 250 returned. The regiment has been recruited, so that 450 are now on line. Fifty more are here of the regiments in the Fort Thomas hospitals, and some are away on furloughs, but many were buried in Cuba. As now Fort Thomas is occupied by hospitals, the regiment will camp and avoid the fort. The soldiers are to be sent to it, and those who were off the Tenth Regiment, which is traveling via the West Shore Railroad, was handled in exactly the same way. The two batteries were shipped via the Pennsylvania Railroad.

The ambulance ship took 120 sick soldiers to Jersey City, where they were transferred to a hospital train, which was to convey them to Philadelphia. The Shinnecock then crossed the North River and landed 26 sick soldiers and 100 convalescent members of the army, the former belonging to St. Vincent's Hospital and New York Hospital. Among the sick cared for at St. Vincent's Hospital were: Sergt. George L. Lamb, Eighth Ohio; Edward Pugh, Eighth Ohio; Albert Chesley, Thirty-ninth Michigan; W. C. Carman, Eighth Ohio; H. Flint, First District Columbia; Chris Maher, First Illinois; and the Tacon Theater last night there

when the regiment arrives over the B. and O. Railway.

MILITARY LIBEL CASE.

[ASSOCIATED PRESS NIGHT REPORT.]

SANTIAGO DE CUBA, Sept. 18.—Yesterday charges were preferred by Capt. Miller of the Second Immune Regiment and Capt. Shelley of the Fifth Immune Regiment, against Joseph W. Johnson of the Third Regiment for maligning and libelling the officers and soldiers of their respective regiments in an article published in the Atlanta Constitution, August 2.

SPANIARDS DISGUSTED WITH ROTEN SPANISH MANAGEMENT.

[ASSOCIATED PRESS NIGHT REPORT.]

SAN FRANCISCO, Sept. 18.—The transport Condor sailed for the South, prior to their transportation to Cuba, and all those present were of the opinion that it would be better for their commands to remain at Montauk until the government is ready to ship them to Cuba.

Montauk was quiet at the camp today. A conference was held at Gen. Wheeler's headquarters, at which the colonels of the cavalry division were present. News were exchanged on the arrival of the troops to a new camp in the South, prior to their transportation to Cuba, and all those present were of the opinion that it would be better for their commands to remain at Montauk until the government is ready to ship them to Cuba.

TRANSPORTS FOR MANILA.

TRANSPORTS Michigan and Ches- ter and Steamer Iris Return.

[ASSOCIATED PRESS NIGHT REPORT.]

NEW YORK, Sept. 18.—The United States transport Michigan arrived this morning from Santiago, from which port she sailed on September 11. The Michigan brought twenty-nine passengers, among whom were Charles T. Baker, assistant quartermaster; Capt. E. Primes of the Cuban army; Surgeons Kennedy and Agramonte and two army clerks. The other passengers were hospital stewards, nurses and laborers. The Michigan was boarded by the health officers here shortly after

THIRD ONE NOT MUCH LATER.**JAPANESE FATHER CAUGHT IN THE DEVOURING ELEMENT.**

Heavy Loss by Fire at Tucson—Expert Horseman Killed by a Fall. Utah Cavalry Driving Out Sheepherders.

[ASSOCIATED PRESS NIGHT REPORT]

SACRAMENTO, Sept. 18.—The loss by fire that burned the Booth building on Front street this morning amounts to about \$15,000 on the building, which was insured. The contents were valued at from \$15,000 to \$20,000, being wall paper, etc., owned by the W. P. Fuller Company, and covered by insurance. Seven fine horses stabled in the rear were burned.

About 4 o'clock, while the city's three engines were being housed, a fire started in a small structure on L street, between Second and Third, and was extinguished without much loss. About 5 o'clock another fire broke out in a Japanese house in the rear of No. 308 L street. Rida Kadado was terribly burned and may die. His wife and child barely escaped with their lives. Both the latter fires are believed to have been incendiary, and the Booth fire cannot otherwise be accounted for, unless by spontaneous combustion of hay in the Fuller stable. There have been so many fires in the last few weeks that it would seem as if a firebug is at work.

TRESPASSING SHEEP HERDERS.

Utah Cavalrymen Engaged in Rounding Them Up in Yosemite.

[ASSOCIATED PRESS NIGHT REPORT]

WAWONA, Sept. 18.—The Utah Volunteer Cavalry, commanded by Capt. Haline, is rapidly driving from the Yosemite National Park sheep herders found trespassing with thousands of sheep. Lieut. Kimball, in charge of the detail patrolling the eastern section, arrested and held in custody by Capt. Price nine sheep men with animals and pack. Their sheep were scattered, and unless cared for by the mounted, the arrests will result in great loss to the owners. Another detail from the northwestern boundary brought in five men found with stock grazing in the park.

Lieut. Kimball is still patrolling the park, and as numerous bands are known to be within the limits, many more sheep will undoubtedly follow. Most of the scattered sheep are known to belong to French and Portuguese, who have kept their stock in the park boundaries all summer.

Some of the herders captured upon the mountain are so unaccustomed to surrender when ordered to do so by Capt. Price. They reluctantly submitted, however, when covered by fire-arms. They were compelled to walk from the place of arrest to Camp Wood, thirty miles distant, where they were sent at 8 p.m. The men were divested of most of their clothing. On account of a very dry season there is a great scarcity of water throughout the park. Many streams are dry, killing off the trout, thousands of which were added to this season from the hatchery at Wawona.

IT WAS SELF-DEFENSE.

Peter Davidson Justified in Pushing Wyatt Off His Veranda.

[ASSOCIATED PRESS NIGHT REPORT]

EUREKA, Sept. 18.—Peter Davidson, on trial for the murder of James Wyatt, near Ferndale, last June, was acquitted by a jury at a late hour last night on the ground that the defendant acted in self-defense. The men were intoxicated, and Davidson pushed Wyatt off the veranda of his residence, causing injuries from which it was alleged Wyatt died.

FIRE AT TUCSON.

Telegraph and Express Offices and Odd Fellows' Hall Gone.

[ASSOCIATED PRESS NIGHT REPORT]

TUCSON (Ariz.) Sept. 18.—The Radulovich mercantile and office building block was totally destroyed by fire this morning. The Western Union telegraph, Wells, Fargo & Co., and telephone offices were all destroyed; also Kit's dry goods store, Radulovich's store, a large number of offices and Odd Fellows' Hall. The total loss will be less than \$75,000. Had it not been for the character of the building, the entire center of the city would have been destroyed. The Southern Pacific fire department, with its water supply, did heroic work.

SIGNED OVER HER PROPERTY.

A Wealthy Woman Gives to the University of the Pacific.

[ASSOCIATED PRESS NIGHT REPORT]

PACIFIC GROVE, Sept. 18.—Mrs. Woodward, a wealthy woman of the laity of the Methodist Episcopal conference, has signed a deed conveying property in the city of Seattle, Wash., valued at over \$75,000, to Bishop Hurst in trust for the California conference. The income from the property will, under certain conditions, be given to the University of the Pacific.

The trustees of that institution held a meeting tonight to take steps for accepting the gift. The transfer has been completed, and the fact will doubtless be announced to the conference tomorrow.

HAMLIN GARLAND'S EXPERIENCE.

Narrowly Escapes Starvation on the Terrible Spokane Route.

[ASSOCIATED PRESS NIGHT REPORT]

SAN FRANCISCO, Sept. 18.—A Chronicle special from Seattle says Hamlin Garland has reached Pine Creek, the newest gold camp in Alaska, after a narrow escape from death by starvation on the terrible Spokane route. He has been months on a thousand-mile journey, taken up at the instance of prominent Canadians, and owes his life to good luck rather than anything else. He started for Dawson from Ashcroft, expecting to make a hurried trip into the interior. With every mile that he put between himself and Ashcroft, the trail grew worse until at last it was almost impassable. At last the trail faded suddenly from view. For days the party wandered on through swamps and time-

bered lands, none of them knowing where the end would be.

After being on short rations for several days they stumbled into a Hudson Bay post. They replenished their outfit and started again for the Yukon. The distance was misrepresented, and their grub began to run short while the end of the journey seemed no nearer. Garland put his men on short rations and kept moving on. At last they reached the Glenora, very much exhausted. From there Garland took a steamer to the Pine Creek country.

[ASSOCIATED PRESS NIGHT REPORT]

Methodist Pastors Held Forth Numerously at Pacific Grove.

[ASSOCIATED PRESS NIGHT REPORT]

PACIFIC GROVE, Sept. 18.—This was one of the busiest days of the week. There was a sunrise prayer meeting at 6 o'clock a.m., and at 9 o'clock the annual love feast was held. This was led by Rev. D. Heacock of Santa Clara. The annual conference sermon was preached at 11:30 o'clock by Bishop J. F. Hurst of Washington, the presiding officer of this conference.

Ordination services were held at 3 o'clock. Those who took orders today were Fred Cross, Edward Snowden, Edward H. Mackey, Fay Donaldson and Lee Ton Say. H. E. Milnes and Walter Merritt were unable to appear, and their ordination was postponed. The following were ordered to be ordained: Bishop H. L. Burwell, Frank Hindson, William A. Kennedy, W. C. King and T. H. Nichols.

Memorial service for members of the conference who died during the last year was held at 4 o'clock.

North Lodge anniversary was held at 6 o'clock, addresses being made by prominent speakers. A celebration by the conference missionary society closed the day's exercises.

ESCAPED FROM SAN QUENTIN.

Convict Trusty Gould of Santa Cruz Now at Large.

[ASSOCIATED PRESS NIGHT REPORT]

SAN FRANCISCO, Sept. 18.—Alton H. Gould, a convict trusty in the office of Captain of the Yard Edgar Alton at San Quentin prison, escaped this evening about 7:30 o'clock, by scaling the east wall of the prison. A detail of over seventy-five heavily-armed guards was stationed through the county from San Quentin to Ross Valley, and every avenue of escape is believed to be cut off.

Gold was brought to San Quentin October 15, 1893, to serve a fifteen-year sentence for burglary committed in Santa Cruz county. After working in the road gang he was assigned to duty as a clerk in Capt. Edgar's office, and he won the confidence of most of the prison officials. A piece of baling rope swinging from the wall showed the manner of his escape.

HORSEMAN'S FATAL FALL.

PRESCOTT (Ariz.) Sept. 18.—John Stillwell, one of the most expert horsemen and cowboys in Arizona, was thrown from a horse which he was engaged in breaking last night, and died this morning. The accident happened at Norton's ranch, eighteen miles from Prescott.

SIBERIAN RAILWAY.

A New Train with the Latest Improvements—Easy Travelling.

[London Standard] The new Siberian train which was recently sent to St. Petersburg for the approval of the Khilkov, Minister of War and Communications, reached today, after being specially inspected by the Czar.

The train, which is the grand field: Miss Logan, Egozen, Anna Lee, The Swift, Evangelina, Wilkes Belle, Carry J. Lady of the Manor, Live Point, Edward O. Spikes Bell, Wood, King, and Belle G.

The full list of trains for the fall meeting is as follows: Kentucky Matron stake, for all classes of 1898, \$10,000; the Douglas trotting, \$5000; the Selbach, \$5000; Frank Fehr, trotting, \$2000; Special Club, trotting, \$2000; Board of Trade, trotting, \$2000; The Falls City, trotting, \$2000; the Louisville, trotting, \$2000; the Preparation, \$1000; the Dewey, trotting, \$1000.

BURNING TO FIGHT.

Corbett and McCoy May Get at Each Other Yet.

[By DIRECT WIRE TO THE TIMES]

NEW YORK, Sept. 18.—[Exclusive Dispatch] That Corbett-McCoy fight will come off if the principals have to go to Cuba, Honolulu or the Philippines "to make it good." They are so desirous of smashing each other's face that they are losing sleep over the fear that they will not be allowed to. Tomorrow afternoon they will hold one more meeting and try to agree on some point of combat other than Buffalo. George Corbin met with B. Gray, McCoy's manager, on Broadway today, and they arranged consultation for tomorrow at Corbin's place.

Although both men say they are wedded to no club or location, it looks as if Carson City will bag the attraction. As a matter of fact, Corbett and Corbin would just a little rather have San Francisco selected. It is the former champion's home, and he would like to fight his last great battle there, but he will make no point of this bit of unfairness. He will leave the whole affair to his opponent.

McCoy and Gray are opposed to San Francisco, because it is Corbett's birthplace, and because they have heard rumors of crooked fights having been pulled off there. They have not the least idea that such a thing would be attempted in the present contest, but they deem it best for all parties concerned to go somewhere else.

The only other available and desirable point is Carson. Dan Stuart has offered \$15,000, and does not straddle this proposition with picture machines. He is about as sick of those devices as the fighters are, and is dead willing to give medical assistance, and superintendents, who speaks Russian, French, German and English, are among the other conveniences to come for a traveling novice provided.

The train will be lighted inside and out by electricity, and electric cigar lighters find a place in the dining car. A lavatory has been fitted in the second-class cars, and arrangements made for boiling water in three minutes by means of steam, which were found in the first train, the new one is fitted with plates which indicate the next stopping station, and, if the stoppage be over five minutes, also how long the train stops.

All the windows are protected from dust and wind by external plate-glass guards; the last coach is arranged to serve as an "observation car," showing three views of the country traversed. A three-wheeled bicycle with an armament for measuring in minutes and kilometers the amount of work done; a barber, who is also qualified to give medical assistance, and superintendents, who speaks Russian, French, German and English, are among the other conveniences to come for a traveling novice provided.

The train will be lighted inside and out by electricity, and electric cigar lighters find a place in the dining car. A lavatory has been fitted in the second-class cars, and arrangements made for boiling water in three minutes by means of steam, which were found in the first train, the new one is fitted with plates which indicate the next stopping station, and, if the stoppage be over five minutes, also how long the train stops.

The whole business is absolutely up to McCoy," said Corbett today. "I stand ready to go wherever he names. It is settled the fight cannot be pulled off at Buffalo, so I am willing to go anywhere the 'Kid' names. Our money is in, and I for one do not want the public to think there is any 'fakey' about us. Carson, San Francisco, El Dorado, or any other old place suits me."

"McCoy will be on hand at 2 o'clock," said Gray, "and I sincerely hope all of us will be able to agree on a place that will be beyond police interference and preachers."

COAST BASEBALL.

Pioneers Win the Third of the Monarch Series.

[ASSOCIATED PRESS NIGHT REPORT]

GRASS VALLEY, Sept. 18.—The third game of the series between the Pioneers and Monarchs was won by the former today; score 11 to 8. Both sides did heavy hitting.

ATHLETICS CRUSHING DEFEAT.

[ASSOCIATED PRESS NIGHT REPORT]

SANTA CRUZ, Sept. 18.—The Beachcombers today took revenge out of the Athletics for the loss of the former, when the teams played here earlier in the season. The visitors were unable to make a run. Taylor, who pitched five innings, was batted all over the field. In the sixth inning, Fitzpatrick was put in the box for the Athletics, and he looked terrible, but he got eight runs in that inning. It was the most crushing defeat administered to any team this season. Score: Santa Cruz, 16; Athletics, 0.

NEARLY A RIOT.

[ASSOCIATED PRESS NIGHT REPORT]

SAN FRANCISCO, Sept. 18.—The Stockton went another step forward in the pennant race today at Recreation Park by defeating the San Fran. The entire game was marked by kicking and confusion, which, in the latter part of the contest, approximated a riot when Capt. Murphy of the local team threw one of the Stockton bats clear over the grand stand. Score: Stockton 14; base hits, 11; errors, 9. San Francisco, 9; base hits, 7; errors, 7.

Batteries—Knell and Pace; Shea, and Hammond.

FINE EXHIBITION.

[ASSOCIATED PRESS NIGHT REPORT]

SACRAMENTO, Sept. 18.—The Gilt Edges won from the San Fran. team one of the greatest exhibitions seen on the local diamond. Doyle and Thomas were both remarkably effective at critical times, and were given excellent support by their respective teams. Doyle won his own game by batting an home run in the third inning, batted out by Hutchinson. In the fifth Thomas also made a home run—the only tally chalked up to the visitors. Score: Gilt Edge, 8; base hits, 4; errors, 2. San Jose, 1; base hits, 7; errors, 1. Batteries—Doyle and Stanley; Thomas and Kent.

AMATEUR SPORT.

[ASSOCIATED PRESS NIGHT REPORT]

SAN FRANCISCO, Sept. 18.—The Alamed Alerte and the Lash's of this city today proved that the clubs of the amateur league can put up good baseball. They played a close and exciting game at Sixteen and Polk streets, resulting in a victory for the San Francisco team by a score of 8 to 7.

THIRD ANNUAL ROAD RACE.

Indiscriminate Pacing Proves to Be Productive of Fast Time.

[ASSOCIATED PRESS NIGHT REPORT]

SAN FRANCISCO, Sept. 18.—The third annual road race of the California Associated Cycling Clubs for the Baker and Hamilton trophy was run today over the San Leandro twenty-mile course. A system of indiscriminate pacing was adopted, and proved a success.

The five men of the Olympia Club team covered the distance in the aggregate of 100 miles in 10 hours, 45 minutes, and 20 seconds, which was made by the Bay City Wheelmen was 4:34:18, and by the Acmes 4:32:49. The individual average time was: Olympics, 53:22 4:5; Bay City, 54:51 3:5; Acmes, 55:09 4:5. Wins of the Olympics made the best time of the race in 52:37, almost equalling the Coast twenty-mile record. That the Bay City good losers was shown at the finish, when they led in three cheers for the victorious Olympics.

The Mare Island stake, total \$10,000, will be a great event. The 10-year-olds will contest this year in the trotting and pacing division. Eighty-one stables elected to name entries. Crystalline is the favorite in the trotting race, and the 10-year-olds, which were \$5,000, will bring the following stakes, which were \$1000: the Selbach, trotting, \$5000; Frank Fehr, trotting, \$2000; Special Club, trotting, \$2000; Board of Trade, trotting, \$2000; The Falls City, trotting, \$2000; the Preparation, \$1000; the Dewey, trotting, \$1000.

OUTLAWED BY L.A.W.

Denver Bicycle Track and Well-Known Riders, Throw Out.

[ASSOCIATED PRESS NIGHT REPORT]

DENVER, Sept. 18.—W. I. Doty, the western representative of the L.A.W., announced tonight that all persons in any way connected with the race meeting held here today will be suspended from the privileges of the league, and that the track owned by Messrs. Harris and Bauman, where the races were held, will be outlawed.

Mr. Doty is determined to enforce the rules of the league against Sunday racing. This decision of Representative Doty's with the many well-known riders, including W. W. Hines, B. Hughes, Bertie Banks, C. H. Hinckle, C. V. Dasey, and a number of others, will be held.

THE TIMES—
Weekly Circulation Statement.STATE OF CALIFORNIA, COUNTY OF
LOS ANGELES, S. S.

I, Harry Chandler, appear before me, Harry Chandler, general manager of the Times-Mirror Company, who, being duly sworn, deposes and says that the daily business of the paper, of and for the entire half month of the week ended September 17, 1895, were as follows:

Sunday, September 11.	31,800
Monday.	23,310
Tuesday.	23,300
Wednesday.	24,320
Thursday.	23,300
Friday.	23,310
Saturday.	23,310

Total for the week..... 176,260

Average for the week..... 25,182

Signed and sworn to before me, Harry Chandler, Subscribed and sworn to before me this 17th day of September, 1895.

JOHN THOMAS L. CHAPIN,
Notary Public in and for the County of Los Angeles, State of California.

NOTE.—THE TIMES is a seven-day paper. The above aggregate, viz., 176,260 copies, issued by us during the seven days of the past week, would, if apportioned on the basis of six-day evening paper, give a daily average circulation for each week-day of 29,350 copies.

THE TIMES is the only Los Angeles paper which has regularly published sworn statements of its circulation, both gross and net, weekly, monthly and yearly, during the past several years. Advertisers have the right to know the NET CIRCULATION of the medium which seeks their business, and this THE TIMES gives them correctly, from time to time; and it furthermore guarantees that the circulation of THE TIMES regularly exceeds the combined circulation of all other Los Angeles daily newspapers.

SAN BERNARDINO COUNTY.
Arrangements for Co. K's Reception
at Harvey Club Plaza.

SAN BERNARDINO. Sept. 16.—[Regular Correspondence.] The members of the Harmonie Club are already at work preparing for the coming musical season. The club with its fine musical forces, will be in October and at the business meeting it will be proposed to bring here during the season some first-class musical attractions, placing them on the operahouse stage under the club's roof.

The ladies of the Rebekah degree of Odd Fellows will hold a basket picnic this Saturday at Lake Skinner.

Co. K's reception is to be decided upon by the committee, will be about like this: The company will be met at the station and escorted to the Armory to dispose of arms and instruments, and to be informed of the reception. The soldiers will then be escorted to the Pavilion, where an elaborate banquet will be served. The G.A.R. Soldiers and荒人 will act as an escort. Subscription lists for the reception fund may be found at Town & Lamb's, Houghton's and Eddie's.

Rev. James A. Wenzel, preached today at the Christian Church. The evangelistic services will be continued throughout the week.

The early morning delivery of the Sunday paper is made possible by the running of a special train, met with the hearty approbation of the San Bernardino subscribers, most of whom had the paper delivered at their homes before breakfast.

Making Milk Sugar.

[Chicago Tribune:] Now that we are having exploited attempts to produce gold from sea water and electric coffee from water, we are bound to believe that the mind of inventive man has conceived the brilliant idea of manufacturing sugar from milk. It is believed, however, that this industry is the very latest along the line of the extraordinary, and that therefore, entitled to some consideration.

Not every one may hope to achieve the results which an Illinois man has gained. For instance, when you lift the jar of alleged milk from the dumb-waiter in the morning and explain to the lordly master that just within his bill has been allowed to "run on you" mustn't think you can convert the palatable juice of the Jersey immediately into the granulated or powdered product you use on your berries or in your tea. It takes a genuine scientific trick. And not every man is a genius. You must have an extensive plant and a mechanical turn of mind or you won't succeed in this modern miracle of turning milk into sugar.

In the Fox River Valley, surrounded by a high bank of wire fence to keep out the curious, stands the factory where the metamorphosis is effected. The man who runs the concern has a number of creameries and is considered a milk expert of the first water. It is water, and that's no idle jest. He has had experience in all branches of the trade and has been working on his system until he has perfected it. When the hired men come to the factory with their pails of milk freshly creamed and the milk turned into butter, which is no trick at all and worthy of only passing mention. Did you know that skinned milk could be dried? Well, it can. After it is separated from its rich relative, cream, the skinned milk is curdled and dried.

It is now easier to grind it just as you would grind corn, and when it reaches the meal stage, it is forwarded to New York and other eastern points to be liquified and used in glazing. The whey is then sold to the bakeries.

It is left for the confectioner, and the inventor has a way of utilizing it that may mean a fortune to him. It is boiled and boiled and boiled until it is syrupy, and then boiled some more until it is a brownish sugar. It is here that the secret of the invention comes in play. He had a process of refining which converts the brown sugar into as fine a grade of granulated sugar as you can find throughout the length and breadth of a city of grocery stores. The milk sugar is a superior kind of article, and it comes high. Persons who buy it pay 50 cents a pound and use it for medicinal purposes.

THE "KITE SPECIAL."

NEW TRAIN SERVICE FOR "SUNDAY TIMES"
READERS.

Yesterday morning at break of day the deep, rich-toned whistle of engine 19, of the Southern California Railroad proudly headed "The Times Flyer," freighted with more than 10,000 copies of the Sunday Times, gave notice to the slumbering residents along the line of the road between Los Angeles and San Bernardino that The Times, which for two years has sent out the "Surf Line Flyer," had started the initial Sunday train to be known as The Times' "Kite Special."

This new feature of The Times' special delivery is designed to provide the citizens who live along the line of the Kite track the first news every Sunday morning. In conjunction with the well-established "Surf Line Special," reaching San Diego at 9:50 every Sunday morning, these trains will carry The Times at the earliest possible hour to readers in every portion of Southern California.

At every town and city special carriers mounted on cycles or equipped with conveyances deliver The Times and the paper is delivered to the post office at 5 o'clock, 2:30, 4:30 o'clock. The great Hoe perfecting process, giving a capacity to print, bind and wire stitch 24,000 copies of the Magazine portion of The Times every hour, and from 24,000 to 36,000 copies per hour of the news and editorial sections, were running at lightning speed, completing the edition for the special Sunday train.

Nearly as fast as the papers were perfected from the presses a crew of active mailing clerks were wrapping and labeling the bundles for the towns and cities to be served. Another crew carried the bundles to the travel-wagons, and when these were filled with the big packages the drivers jumped in, "gave the horses the bits" and let

Grande Depot ready to start at 5 o'clock in the morning. That is the hour it will start each Sunday. Yesterday morning it was loaded with scores of bundles and the Sunday Times one minute before its scheduled time of leaving. A number of guests were invited to The Times' management to take the trip, and a merry party boarded the train a few minutes before its departure.

At the Times' office everything was as it should be at 5 o'clock.

With it is considered that neither Conductor Kinney nor Engineer Gordon had been over the "kite" route before the run for the whole trip was a remarkable one.

The entire distance covered by The Times' Kite Special was 203 miles. The time consumed in making the run was precisely four hours and forty-six minutes.

The run from Santa Ana to San Diego

FROM THE ARCTIC.

A SHIPWRECKED SAILOR'S BREEZY LETTER FROM POINT BARROW.

Life in a Snowhouse Among the Esquimaux—Seal and Walrus Blubber for Tidbits—Narrative of Strange Adventure and Queer Experience.

Like a breath of air from the polar circle is the letter which C. G. Sandstone of Los Angeles has received from his brother Martin, one of the sailors wrecked on the imprisoned whalers near Point Barrow, and rescued by the United States revenue cutter Bear. The stout young sailor's letter does not tell of the now commonplace Alaska, of the gold regions, grown hackneyed nowadays by much description and reminiscence, but of another Alaska, the Alaska of Esquimaux and walrus, free from any trace of civilization and modern life.

This letter was many months in making its way by sled for 2000 miles across country, and then by ship to Portland, where Martin's parents live, and soon after its arrival its writer himself appeared.

Great was the rejoicing over the missive, for it had been supposed that the young sailor was dead. The first intimation that C. G. Sandstone had been lost was when his brother was still in the land of the living, was when this letter was for-

POLITICS.

A political convention seldom completes its labors without creating a myriad of enmities, jealousies and heartburnings, which are apt to prove seriously injurious to the success of the ticket nominated. It is, therefore, remarkable that the Republican County Convention, held last week, was so free from consequences of this description.

There were, to be sure, many keen disappointments, and many deserving candidates failed to secure places upon the ticket. There is, of course, sore discontent among the coteries of would-be bosses who sought to dictate what the convention should do. But the Republican voters of the county, as a whole, have viewed the results of the convention's labors with extreme satisfaction. On every hand the opinion is expressed that the ticket is an invincible one, absolutely free from any suggestion of a slate and untainted by the blighting influence of the push.

One of the strong factors in knocking out the slate was the Pasadena delegation. In every instance where the slatemakers put up a strong fight, Pasadena was found in the front ranks of the opposition. Of course, Pasadena's one fight was for Charlie Bell, and much shrewdness was displayed in effecting combinations in his behalf. His friends were tireless, and their enthusiasm was unfeigned.

Several parties of government officers had been up the river for former years and reported finding plenty of copper and gold in the hills. These parties, desirous of operating on the run began to look into the matter. They found sea captains who would say that the Indians had plenty of gold. Then there was some mythical miner who was supposed to have brought out \$50,000 worth of gold.

Like a flash it was off. The story did the work. Other miners were found who told marvelous tales of gold to be had for the digging on Copper River. Steamers were sent around from New York to go on the run. The Pacific steamer Valdez, which had a port at Valdez, an once-proud port on the Alaskan route prominently before the public. It had been the most unfortunate of all the Alaskan routes during the past three years.

No one really seems to know just how it started, or who is responsible for it. Several parties of government officers had been up the river for former years and reported finding plenty of copper and gold in the hills. These parties, desirous of operating on the run began to look into the matter. They found sea captains who would say that the Indians had plenty of gold. Then there was some mythical miner who was supposed to have brought out \$50,000 worth of gold.

Like a flash it was off. The story did the work. Other miners were found who told marvelous tales of gold to be had for the digging on Copper River. Steamers were sent around from New York to go on the run.

The Pacific gold excitement was the most emphatic in its terms, and it was adopted by the convention without a single dissenting vote. The significance of this action cannot be overestimated. The 751 delegates who adopted the resolution constituted the largest and most representative body of convention delegates ever assembled in Los Angeles. Their declaration, that office-holders should wholly abstain from interfering in politics, will meet with the hearty approval of every intelligent voter in the party. The will of the Republic of the country was to be done in their convention, was promptly recognized a few days later by Supervisor Wirsching, who resigned from the Congressional Committee, because, as an office-holder, it was improper for him to remain on it.

The failure of the convention to adopt the Australian ballot occasionally must be accounted for by the fact that the experiment would be tried. The scheme was viewed, however, with some suspicion, because it had met with the approval of some politicians whose methods were equally suspicious with the goldminers. Had the Australian ballot been adopted, it is doubtful whether any better results would have been obtained. The secret ballot, as conducted under the safeguards imposed by the chairman, gave every delegate an opportunity to vote according to his choice. While trades and combinations were made, no delegate was under any compulsion but that of honor.

Some regret is expressed, for geographical reasons, that Pomona was not accepted as a place for the ticket. It is not to be assumed that Barnes of Pomona would have been nominated for Recorder if it had not leaked out that he was on the slate. This was the chief influence that defeated him. For Pomona's chief tolographer was generally considered to be just as Barnes was also injured somewhat by the dissensions in his own delegation, and some members of it may yet be called to account by their constituents for certain acts of bad faith.

Once up to the tributaries on which gold was reported, they started to mine. A few colors rewarded their efforts, but no one has yet found gold paying quantities. Many would have pursued the scheme, but a party that had been a year there had been met coming over to the Copper River after a fruitless winter on the Tanana. Some lost their outfit in snowstorms while crossing the three-mile stretch across the beach to high land. Others got no further than Valdez, and the man who started to cross the glacier wished from the start that he had not heard of Copper River. The glacier led off with a terribly steep bench, and then down to a series of benches, to the summit, a distance of eighteen miles. Over this trackless waste of snow the men struggled with heavy loads. As much of their time was spent going back for firewood as in getting the outfit forward over the glacier, for not a stick grew there. At mighty slides, those who came late had soft snow and honeycombed ice to contend with.

Once up to the glacier, the argonauts thought the troubles at an end. Again they were sadly disappointed. The country was too rough to travel through, and the rivers too swift to boat in safety. Many outfit were lost in the dangerous trip down the Tanana River. On reaching the Copper River they found ascent impossible for months, on account of high water.

Once up to the tributaries on which gold was reported, they started to mine. A few colors rewarded their efforts, but no one has yet found gold paying quantities. Many would have pursued the scheme, but a party that had been a year there had been met coming over to the Copper River after a fruitless winter on the Tanana.

This settled the thing. It was a mad race to get back to the coast. It was a mad dash to Valdez. Many were drowned in the swift waters of the interior streams, their boats being dashed against rocks or overturned in the rapids.

The everlasting northern sun had made great changes in Valdez glacier. In every direction stretched out great fields of ice, and the rivers too were lost in the dangerous trip down the Tanana River. The party that had been a year there had only to abandon the cause of any kind.

Fortunately for the miners, however, the government was represented. Capt. Americrombie had been stationed there with a small body of troops since early in the year. His party was to have made a survey up the river, but never got away from Valdez. The party had been also without money. Many were also without food.

Fortunately for the miners, however, the government was represented. Capt. Americrombie had been stationed there with a small body of troops since early in the year. His party was to have made a survey up the river, but never got away from Valdez.

In the mad rush home outfit had been abandoned, and many of the retreating army wound up at Valdez without sustenance of any kind. Many were also without money.

Fortunately for the miners, however, the government was represented. Capt. Americrombie had been stationed there with a small body of troops since early in the year. His party was to have made a survey up the river, but never got away from Valdez.

It is Capt. Americrombie that made the request of a government vessel to bring back the miners. Were they not sustained starvation would be their portion, for the steamship companies would not bring them back for nothing.

J. FRENCH DORRANCE.

Significance of Potowallower.

[Leisure Hour, London:] All through the present century ridicule, if not odium, has attached to the potowallower; but it must not be forgotten that the potowallower was significant of much that was important in English history. The potowallower was an inhabitant of a town who provided and dressed his own meal. In other words, he was a free man. And this was not the case with the potowallower.

It is Capt. Americrombie that made the request of a government vessel to bring back the miners. Were they not sustained starvation would be their portion, for the steamship companies would not bring them back for nothing.

J. FRENCH DORRANCE.

COPPER RIVER.

RUSH TO THE GOLD FIELDS HAS FOREVER ENDED.

Starving Adventurers to Be Brought Back to Civilization in a Government Vessel—People Lost in the Glaciers—Causes of the Fatal Rush.

[SPECIAL CORRESPONDENCE OF THE TIMES.]

SEATTLE (Wash.) Sept. 11.—The rush to the mythical gold fields of the Copper River country has forever ended. The United States government has designated a war vessel to take supplies to the suffering immigrants who have reached Valdez on the return trip, after a hopeless search for gold in the interior, and who are now stranded there. The same vessel, the Wheeling, will commence taking the immigrants back to civilization. Several trips will be necessary, and it is said that the cutter Bear will be assigned to assist the Wheeling, as soon as she returns from relieving the ice-bound whalers at Point Barrow.

The Copper River gold excitement has been the most unfortunate of all the Alaskan rushes during the past three years.

No one really seems to know just how it started, or who is responsible for it. Several parties of government officers had been up the river for former years and reported finding plenty of copper and gold in the hills. These parties, desirous of operating on the run began to look into the matter. They found sea captains who would say that the Indians had plenty of gold.

Like a flash it was off. The story did the work. Other miners were found who told marvelous tales of gold to be had for the digging on Copper River. Steamers were sent around from New York to go on the run.

The Pacific gold excitement was the most emphatic in its terms, and it was adopted by the convention without a single dissenting vote.

One of the noteworthy acts of the convention was the adoption of a resolution rebuking interference in party politics by Federal, State, county or city office-holders. After reading the evils which resulted from the conduct of such officials, the resolution stated that no such officials should be permitted to serve in any political convention or upon any political committee.

The resolution was most emphatic in its terms, and it was adopted by the convention without a single dissenting vote. The significance of this action cannot be overestimated.

The 751 delegates who adopted the resolution constituted the largest and most representative body of convention delegates ever assembled in Los Angeles.

Their declaration, that office-holders should wholly abstain from interfering in politics, will meet with the hearty approval of every intelligent voter in the party.

The will of the Republic of the country was to be done in their convention, was promptly recognized a few days later by Supervisor Wirsching, who resigned from the Congressional Committee, because, as an office-holder, it was improper for him to remain on it.

Some regret is expressed, for geographical reasons, that Pomona was not accepted as a place for the ticket. It is not to be assumed that Barnes of Pomona would have been nominated for Recorder if it had not leaked out that he was on the slate. This was the chief influence that defeated him. For Pomona's chief tolographer was generally considered to be just as Barnes was also injured somewhat by the dissensions in his own delegation, and some members of it may yet be called to account by their constituents for certain acts of bad faith.

If there ever was a man who was without home in his own county convention, that prophet is Walter F. X. Parker. Every county candidate whose name was told that over the

valley, he had been told that over the

The Times

THE WEATHER YESTERDAY.

U. S. WEATHER BUREAU, Los Angeles, Sept. 12.—[Reported by George E. Franklin, Local Forecast Official.] At 5 o'clock a.m. the barometer registered 29.45; at 5 p.m. 29.33. Thermometer for corresponding hours showed 60 deg. and 72 deg. Relative humidity, 5 a.m., 75 per cent; 5 p.m., 53 per cent. Wind, 5 a.m., calm; 5 p.m., west, velocity 6 miles. Character of weather, clear. Maximum temperature, 78 deg.; minimum temperature, 60 deg. Barometer reduced to sea level.

WEATHER FORECAST.

SAN FRANCISCO, Sept. 18.—For Southern California: Fair Monday, fresh westerly

ALL ALONG THE LINE.

The Melrose powder works, which were destroyed by an explosion some time since, will not, it is announced, be rebuilt for some time. The demand for powder is not so great as it was some weeks ago.

Oakland is beginning to take a broader view of things. It has this year extended its exposition, which has heretofore been limited to the products of Alameda county, so as to admit exhibits from any part of the State.

If reports are true, the gamblers were given the freedom of the city at Sacramento during the State Fair. All sorts of games, it is said, were permitted to run, with little attempt at exclusion. If the citizens of Sacramento can stand the reputation, which this line of policy gives, then the rest of the State can worry along under it.

The Visalia Delta says so many drunken men are arrested in that city and so few fined that the city treasury is becoming depleted as result. In effect the taxpaying citizens are fined to pay for the spires of the intemperate. Inebriety is an industry which scarcely warrants nurturing by taxation. Higher licenses and fewer saloons might solve the Visalia problem.

Los Angeles has had no more welcome guest in many day than P. W. Neu, of the firm of contractors who are to construct the breakwater at San Pedro. The assurance which Mr. Neu gives that preparatory work will be begun in one month from now is a gratifying indication that the beginning of the end for which the people of this section have labored so long, and struggled so desperately, is near at hand.

The male millionaires of California, of which there are so many, will need to be doing something handsome soon with their millions in the way of aiding our educational institutions, if they are not to be subjected to the reproach of being outdone by the millionaires of the other sex. Such munificent contributions to the cause of higher education as have been made by Mrs. Stanford, Mrs. Hearst and Miss Flood ought to stimulate our rich men to similar good deeds.

That great exhibit of romance, passion, champagne banquets and blooded horses in Lake county, the Freddy Gethard-Little Langtry stock farm, passed from glorious anticipations to an ordinary tract of fertile land, parceled out to every-day grave farmers as tenants. All that exists of the once noted establishment is a few of the old buildings, and leased grain fields. The race course has been taken by weeds and plodding plow horses usurp the Kentucky thoroughbred and trotting horse. "Freddy" has long since settled down to a life of domestic infamy, and the Jersey Lily has other loves.

THINKS IT FUNNY.

Miss Perkins Not Disturbed at Being Reckoned as Dead.

ASSOCIATED PRESS NIGHT REPORT. MIDDLESBORO (Mass.), Sept. 18.—After much telegraphing and telephoning, a member of the Bridgeport police gained possession of the woman's dismembered body found in Yellow Millpond and brought here by Frank W. Perkins, who had mistaken them as that of his daughter Grace.

The two were scarcely awake this morning when Detective George Arnold of the Bridgeport police arrived. The first thing he did was to call on Undertaker Williams, who brought the remains of the unknown woman from Tauton last night and requested that they be delivered to him. Williams informed the detective that he intended to hold them until he received definite orders from the Coroner at Bridgeport to give them up, supplemented by a sworn statement from Mr. Perkins that the fragments of the body in the box were not those of his daughter. At noon a formal request came from the Coroner addressed to Undertaker Williams and containing an order to give up the body to Arnold. Perkins was induced to sign the statement demanded by the undertaker. With the two documents Arnold again presented himself at the undertaker's and obtained the body, which was in an advanced stage of decomposition.

Miss Perkins appears very much unconcerned regarding the whole affair, and looks on it as more of a joke than anything else. She kept indoors all day, and although the house was surrounded by curious people, few caught even a glimpse of her. The Bourne are even closer-mouthed than the Perkins family. Although denying emphatically that the two are married, the facts have indicated that at the proper time a marriage will be made to Charles Bourne and Miss Perkins.

NOT SURE.

ASSOCIATED PRESS NIGHT REPORT. WILKES-BARRE (Pa.), Sept. 18.—Mrs. John R. Thomas of Warrington, this county, received a dispatch from the Chief of Police at Stamford, Ct., that her daughter Grace was alive and well in that city. This was a great relief to Mrs. Thomas, who had been taken from the description of the press that the woman found murdered in a pond in Bridgeport was her daughter.

Origin of Sandwich Man.

The walking advertisement seen in all large cities and sometimes known as a "sandwich man," is no means a modern invention. In 1560 a procession of men dressed to represent the twelve apostles used to parade the streets of Florence, Italy, being hired by the wine merchants there.

Human Hair Manufacturer.

Limoges has just held its human hair market, women from all the countries round coming there to sell their braids. The price is now, on the average, \$15 a pound; twenty years ago it was \$10. When a bargain has been struck the woman takes it to the nearest inn and stays at the fair market \$12,000 worth of hair was bought.

It is calculated that 1,000,000 acres of forest land are used up every year in Europe to supply the railways with sleepers.

WEALTH OF FRUIT.

"THERE'S MILLIONS IN IT, AND WITHIN REACH."

Nearly Eight Million Dollars of Industrial Value in the Last Crop of Oranges and Lemons. Five Million Boxes Shipped. Over Four Million Dollars for Freight.

Some months since, occasion was taken to refer to the great revenue derived by Southern California from citrus fruit, under the head "Six Millions in sight." The article in question was held up to ridicule by some of the newspapers of Southern California, and by others, it was criticized in a better spirit, but by most, if not all who referred to the article, it was thought to be overdrawn. Inasmuch as the real value of the orange and lemon crop to California has heretofore always been a matter of guess work, it was believed to be of interest to know the true value of the crop of the past season, as nearly as it could be ascertained.

Great difficulty has been experienced in getting a basis from which to figure, but it was thought that the daily reports of eastern auctions, published by the Fruit World, offered a means of arriving very nearly at the truth. It cannot be said that the average selling price of oranges and lemons is the same for all fruit, nor is the price of all such fruit sold. In the first column is given the number of cars quoted at auction sales each month so far as used as the basis of figures following, while in the second column is the average price realized for auction fruit. In the third column is the exact number of cars shipped by the railroads. This does not include express shipments, and no returns are at hand for fruit used for home consumption.

The estimates of freights paid is on the basis of all fruit being shipped as far as the Missouri River. This would be unjust, probably, were it not for the large amounts paid for expressage for hauling the fruit from town to town, for packing and for freight on mountains used by packers, the cost of which would provide an offset for the lower freight rates on the small quantity of fruit used on the Pacific Coast.

It is believed that of the freight paid by shippers fully 25 per cent of the amount is for labor and other expenses of the railroads, which percentage is added to the value of the fruit on the cars in California, to determine the industrial value of the citrus fruit crop.

It is realized that much criticism of this figure is possible, by those whose interest it is to find fault, and it is not claimed that they are absolutely correct. They have been compiled with a vast amount of labor simply as an indication, and not as a portrayal of the value of the citrus fruit industry.

Table of Fruit Products.

E. F. HOWE.

Railroad Reform.

The Socialists have established headquarters at No. 2056 South Main street, for campaign purposes and also a free reading-room. At the regular Sunday evening meeting last night at Forest Hall, Dr. A. J. Stevens selected for his subject, "Economic Individualism vs. Socialism." The speaker said: "As an illustration of the need of government ownership of railroads, we find that the death rate is eleven times greater in the United States than in Germany. There are two and a half million men, many men are employed to the mile of track.

He drew contrasts in the life and death rates of the wealthy class and the working class, declaring the rate to be 2% per 1000 for the wealthy class, and 39 per 1000 for the working class.

WHOLESALE ADVICE.

For People Whose Stomachs are Weak and Digestion Poor.

Dr. Harlandson, whose opinion in disease is worthy of attention, says when a man or woman comes to me complaining of indigestion, loss of appetite, sour stomach, belching, sour watery risings, headaches, sleeplessness, lack of ambition and a general round-tour condition, I advise them to take after each meal one or two of Stuart's Dyspepsia Tablets, allowing the tablet to dissolve in the mouth, and thus mingle with the food eaten. The result is that the food is speedily digested before it has time to decompose. These tablets will digest the food anyway, whether the stomach wants to or not, because they contain harmless digestive principles, vegetable saponins, pepsin and golden seal, which supply just what the weak stomach lacks.

I have advised the tablets with great success both in curing indigestion and to build up the tissues, increase flesh in thin, nervous patients, whose real trouble was dyspepsia and as soon as the stomach was put to rights they did not know what sickness was.

The tablets will great benefit from the use of Stuart's Dyspepsia Tablets. They will cure any form of stomach weakness or disease except cancer of the stomach. Full-size packages at druggists \$6 or \$10 by mail from Stuart Co., Marshall, Mich.

It is calculated that 1,000,000 acres of forest land are used up every year in Europe to supply the railways with sleepers.

It is calculated that 1,000,000 acres of forest land are used up every year in Europe to supply the railways with sleepers.

Dr. Sanden's Electric Belt

Presuming that you get in a tight pinch where quick action is necessary, then your nerve is put to the test. You are not alone, for nerves are quick to think and act because they have weak nerves—nerves that are slow and sluggish. Wha good, then, is your muscle?

Dr. Sanden's Electric Belt.

With strong nerves you can easily cut through a belt and save time. Muscle don't count you much, lie strong every way and you can boast of your manhood. Now are you lacking in nerve? Are you weak in heart or other organs? Bear in mind all these depend upon animal magnetism—electricity for their support. If you are weak seek Dr. Sanden's Electric Belt.

Dr. Sanden's Little Book.

Three chapters in this book are very valuable information for you. It is well bound for—free, closely sealed, by mail.

Consultation free.

Yesterday a notable improvement was introduced in the coursing at Agricultural Park in the method of slipping the hares, as a result of which the hares apparently ran better, things worked more smoothly, and the owners of dogs were better satisfied, as there was perfect fairness in the race of hares.

The new method is one that has been tested and found satisfactory at Union Park and Ingleside in San Francisco. Instead of having all the hares put promiscuously in one corral, and releasing any hare that the attendants may happen to drive out, the hares are put singly in numbered compartments. The owner of the dog under the white flag or going out with his dog for a course draws a card bearing a number. The hare in the compartment bearing a corresponding number is released. Thus owners can hold only their own bad luck responsible if a poor hare is turned loose. This does away with opportunity for a good deal of grumbling, for some dogs are best on long courses, some best with a slow hare, and the qualities of the rabbit often determine the outcome of the course.

Another advantage of the new plan is that there is a lessened chance that the hares will be injured before the course begins by rough handling, jumping about or fighting among themselves.

Orpheum Lass was the winner of the day's coursing, defeating Kitty Scott in a final course run so late in the afternoon that it was impossible for the spectators to see the dogs during most of the race. Orpheum Prince made a splendid showing, his long course being the best. Kitty Scott being one of the most spectacular of the day. Amorita made a good showing against Orpheum Lass, Lirio, Fleetwood, Rosewood and Lillie B are worthy of special mention. Lillie B and Amorita were guarded in the first and second ties, as they both belong to the B. and W. Kennel. The detailed results of the day's coursing were as follows:

Run off—Lirio beat Fleetfoot (a bye) Stape Munton (Dago) beat Doncaster, Kitty Scott beat Gypsy, Lady Wallace beat Matine, Fleetwood beat May Day, Home Rule beat Sir Jasper, Orpheum Prince beat Queen, C. C. Don Orsini, Don Orsini, Queen, J. beat Little Brown Jug, Orpheum Lass beat Elsinore, Beauty beat Romeo, Ormonde beat Fannie, Amorita beat Benerino, Lillie B beat Little Dick.

First tie—Lirio beat Stape Munton, Kitty Scott beat Lady Wallace, Fleetwood, Home Rule, Orpheum Prince, beat Crow, Dog, Orpheum Lass, Queen, J. Rosewood beat Beauty, Lillie B beat Lady Agnes, Amorita beat Ormonde.

Second tie—Kitty Scott beat Lirio, Orpheum Prince beat Fleetwood, Orpheum Lass beat Lillie B, Amorita beat Rosewood.

Third tie—Kitty Scott beat Orpheum Prince, Orpheum Lass beat Amorita.

Final—Orpheum Lass beat Kitty Scott.

HORSE SHOW PLANS.

Honorary Vice-presidents From All Over the Coast.

The managers of the Horse Show Association are meeting with success far beyond their expectations. They are busily working on a pamphlet setting forth the classification and prize list for the coming show. More than \$5000 in prizes will be offered, beside various special prizes in the shape of cups, harness, etc., which have been voluntarily offered by friends of the Association in California and elsewhere.

Nothing points to a great success in the initial horse show. Special distinctive features are being prepared, which, while not interfering with the ordinary features of the horse show, will serve to place this on somewhat different lines from any horse show hitherto held in the United States.

The list of officers and vice-presidents as far as made out is given below. Men as far East as New York and Boston have been asked to serve as honorary vice-presidents, thus making the interest as widespread as possible.

M. S. Severance, president and treasurer; Morris E. Dohm, vice-president; M. E. Worcester, secretary; honorary vice-presidents, (complete list will be issued later) Charles Forman, Alfred Solano, William LeMoine, Wills, J. G. Moss, Fred K. Rule, J. J. Rose, Count Jaro von Sennett, Kastner, W. G. Nevin, H. J. Crocker of San Francisco, Francis J. Carolan of San Francisco, Joseph D. Grant of San Francisco, George A. Newhall of San Francisco, John F. Boyd of San Francisco, F. W. Clegg of Los Angeles, John F. Clegg, John S. Cravens of Pasadena, Baron von S. Broder of San Francisco, Graham E. Babcock of San Diego, Henry T. Lee, Frank S. Hicks, Alfred H. Wilcox, W. L. Vail, J. J. Fay, Jr., E. T. Stimson, Walter S. Newhall, Godfrey Holterhoff, John M. Dwyer, W. H. Banning, Dwight Whiting, H. Newmark, S. F. Stow of Santa Barbara, Thomas R. Bard of Hueme, Robert Lee Bettner of Riverside, G. L. Waring of Riverside, William S. Tevis of Bakersfield, F. P. Morrison of Redlands, Roy Jones of Santa Monica.

SHARPSHOOTERS' TOURNAMENT.

Arrangements for a Big Gathering of Crack Riflemen.

Los Angeles is to have a big shooting tournament, open to all riflemen. The Los Angeles Sharpshooters have announced the events of a tournament to be held on October 21, 22 and 23 at their new range at Glassell Station on the Terminal Railway, five miles from the center of the city and reached in fifteen minutes.

The new range is open and level, with no obstructions or barriers between the shooter and the target, and it is declared in the program that the range is larger in every way. There will be high or more targets, all connected by electric signal system with the firing points, and all appliances necessary to convenience and safety will be provided.

The programme of the tournament is designed to encourage rifle practice in various phases. The events will be as follows:

Sharpshooters' team match October

of his losing his crack pitcher he notified the league. He contended that he had a claim on Borchers and should not be overlooked. Campbell called attention to a clause in the rules which says that if any player participate in five games with one team the player is as good as signed. The San Jose manager pointed out that since Borchers had been signed with Stockton he was at liberty to him. The league took cognizance of this dispute and decided in favor of Stockton. So Borchers must stick by Stockton until he is released.

Hartman has been signed to catch for Stockton. He played in the Northern League last summer and is said to be the equal of Pace.

Tyrrell Hamlin, who has been elected captain of the Freshman baseball team at the University of California, states that there are many candidates for the team and they expect to make a good showing in the inter-class games.

ON THE TURF.

Entries have been closed for the fall race meet in Los Angeles.

Charles Thorpe is expected at Sacramento shortly to ride for Burns & Waterhouse.

The California Jockey Club will hold a two weeks' meeting at Sacramento, beginning this week. Charles F. Price, a prominent newspaper man and turf man of Louisville, Ky., and an official of the Freshman Jockey Club, will preside at the stand during the meet. Mr. Price will also act as president during the club's meeting at Oakland.

COURSING.

[San Francisco Bulletin:] The directors of the Ingleside Coursing Club of San Francisco, at their last meeting, decided to adopt in the future the system of boxing their hares, and the new method is now in vogue at the Ingleside Coursing Club.

The Ingleside Coursing Club has decided to hold its annual meeting on the great plains of Merced on November 15, with nominations invited to sixty-four dogs. The entrance fee will be \$15 and the nominations will close on November 1.

The prizes will be \$500, \$250, \$100 and \$50, with a \$1000 grand prize. Special excursion rates will be allowed by the railroad company, and the directors are assured that the annual meeting will bring together a larger crowd of coursing enthusiasts than in previous years and a very high class of entries to contest for the liberal purse money.

FOOTBALL.

Capt. Percy Hall of the University of California eleven, is determined that candidates for positions on the football team this year must report for practice every afternoon unless previously noticed.

He has posted the following notice: "Each man whose name is on this list must do one of three things, viz. (1) Report at the gymnasium at 5 p.m. or (2) be present daily and explain why he cannot appear at that time, or (3) hand in his suit, so that we can give it to some one patriotic enough to use it. If we do not have men on the team we cannot win from Stanford." Then follows a list of fifty-two men who have signed as candidates for the team.

The football team of Princeton University is to be coached this year by the finest assortment of ex-football men that ever stepped foot on the Tigers' gridiron. "Bliffy" Lee, captain of the Princeton team in 1895, has been selected as head coach, and he will be assisted by the coach of the 1896 team, Frank Sullivan and subsequent to that time there is not a shadow of a doubt, Corbett punched Fitzsimmons with all his strength, and yet everyone knows he could not hit hard enough to get the animal going. Corbett also has a hot temper, and he will find in McCoy a cool-headed person who will take advantage of every break that Corbett is unlucky enough to make.

Bobby Dobbs expects to get a match with Joe Gans before the end of the year. Dobbs whipped Gans last fall in Galveston, Tex., this winter.

Joe Choyinski has an engagement with Bob Armstrong in the East shortly. His manager will be Frank Choyinski's stock material.

In a letter to Manager Kennedy of the Olympic Club, in San Francisco, Alvin King expresses the opinion that Fitzsimmons will never enter the ring. Just before he wrote it, he visited the champion at his summer residence in the Adirondacks, and when he was asked if he was going out on the road with a big theatrical combination in October, and he expected to make a match with Gans.

The New York Evening Sun says: "Corbett is the favorite to win against McCoy, but the McCoy men are very steadfast in the belief that the California team is to be beaten in the future. There is no discrediting the fact that McCoy's cleverness equals that of Corbett or Fitzsimmons. He has never been tried out in a way that would give anyone a fair line on his capacity to take punishment and endure a rough contest. Corbett's career deteriorates the faster he is displayed and he becomes more and more like Sullivan and subsequent to that time there is not a shadow of a doubt, Corbett punched Fitzsimmons with all his strength, and yet everyone knows he could not hit hard enough to get the animal going. Corbett also has a hot temper, and he will find in McCoy a cool-headed person who will take advantage of every break that Corbett is unlucky enough to make.

YACHTING.

Commodore J. Pierpont Morgan has received a cable dispatch from Sir Thomas J. Lipton, expressing his thanks for the kindly way in which the challenge and his representations were received in the New York Yacht Club.

The cable dispatch runs as follows:

"Kindly accept and convey to your committee my warmest thanks and gratitude for the exceedingly kind and friendly manner in which my representatives and the U. S. Yacht Committee were received. Will look forward with great pleasure to personal thanksgiving to you and your committee."

THE VALUE OF HEALTH.

People who enjoy the best of health have many burdens to bear, but those who are suffering with bodily ailments are doubly handicapped in life's struggle.

If you are not physically sound you should consult the English and German Specialists, who are large and successfully conducted medical institutions and have been making marvelous cures since 1872.

Catarrh Cured for \$2.50 a month; no other charge.

CONSULTATION FREE.

English & German Expert Specialists, 218 S. Broadway, Los Angeles

HOURS—9 to 12, 1 to 4 daily; Evening, 7 to 8; Sundays 9 to 11.

Dibblee is the only sure man. Warren will start in as full back, but it will not be all plain sailing for the "Reds." Reld, in the freshman team last year, though a bit clumsy and slow, was yet a man who in his way could out-punt the best of the men and buck the line like a steam engine.

Daly of the freshmen is, perhaps, the most promising quarter-back candidate, while Sawin, Kendall, Ellis, or any one of the numerous class team men may play the other half.

POULTRY.

Peter Maher was asked to meet Gus Ruhlin the other day, and quickly resolved that he would fight Ruhlin any time the latter is ready. Joe Goddard is also after Ruhlin.

Jim Hall will run a boxing club in Galveston, Tex., this winter.

Joe Choyinski has an engagement with Bob Armstrong in the East shortly. His manager will be Frank Choyinski's stock material.

In a letter to Manager Kennedy of the Olympic Club, in San Francisco, Alvin King expresses the opinion that Fitzsimmons will never enter the ring.

Just before he wrote it, he visited the champion at his summer residence in the Adirondacks, and when he was asked if he was going out on the road with a big theatrical combination in October, and he expected to make a match with Gans.

The New York Evening Sun says:

City Briefs.

IN THE OIL FIELDS.

LEASE OF LAND MADE ADJOINING THE PUENTE PROPERTIES.

The Times is promptly delivered by our agents at all seaside resorts in Southern California at 20 cents per week, 75 cents per month. If patrons have any cause to complain of the service at any point, they will confer favor by promptly notifying The Times Mirror Company.

The ladies of Los Angeles and vicinity are respectfully invited to attend the opening of fall and winter millinery, imported patterns and novelties, on Monday and Tuesday, September 19 and 20, at 121 South Spring street.

"Murat Halsted's Story of Cuba," cloth bound, containing over six hundred pages, finely illustrated, given free with one prepaid annual subscription to The Times. The book is offered for sale at \$2.

A private boarding or day school, Los Angeles Academy (military), west of Westlake Park, via Tractive line. Special—Finest cabinet photos reduced to \$1 and \$1.75 per dozen. Sunbeam, No. 236 South Main street.

Monday we begin a special sale of Mexican drawn work to last one week. Campbell's Curio Store.

Dr. Elizabeth A. Follansbee has removed to the Laughlin building, No. 315 South Broadway.

Big bargains in drawn work; 20 to 33 per cent. discount for one week. Campbell's, 235 S. Spring st.

Dr. H. M. Pomeroy has removed offices to 215 Lankershim Blk.

Dr. E. Campbell removed to Laughlin building.

Sale of drawn work at Campbell's.

Fire in a closet in the Rogers building, at Union and Temple streets, last night about 8 o'clock, was extinguished without damage. The origin of the blaze is unknown.

W. Comin, living out on the San Fernando road near the city limits boundary, reported to the police yesterday that his house was entered last Saturday night and some trifles were stolen.

There are undelivered telegrams at the Western Union Telegraph office for E. C. Hubbard, Mrs. Annie L. Crowell, Chester E. Waugh, Frank M. Conser, Dr. Nettie E. Hammon, Mrs. J. J. Fallon, H. N. Maxwell.

The work of painting and renovating at the Young Men's Christian Association rooms will be over tomorrow, and restoration for the public will be held Tuesday evening, at which the Ladies Auxiliary, assisted by the Y.M.C.A. members, will receive.

BIDS FOR CITY BONDS.

Proposed to Be Opened in the City Council Today.

Bids for the four issues of new bonds aggregating \$1,000,000, which are soon to be sold by the city, will be opened in the City Council this morning at 11 o'clock. There will be much competition among the bond buyers for these bonds, and as a result it is considered certain that a good premium will have to be paid to the bond buyers, because it is impossible to anticipate or even estimate how much premium will be offered, but it has long been the hope of the members of the Finance Committee that the amount above par value of the bonds which the city will receive as a result of this sale would be sufficient to pay for all the expenses incident to the issuance of the bonds. This expense has been considerable, and the cost of printing the bonds has been comparatively a small part of it. There have been three special elections, two of which the fire department bonds were voted up, and at the third, park bonds. At the first election, held December 7 last, the fire department bonds were defeated by a margin of only seventy-nine votes, their defeat being due in part to the fact that at the same time proposed school bonds were voted down, and at that time the Board of Education was in the midst of a scandal.

Several representatives of eastern dealers in bonds have arrived in the city for the purpose of personally presenting their services to the city employees. Others will be represented by attorneys and by local banks. The bonds to be sold are first department bonds, \$150,000; bridge bonds, \$23,000; tunnel bonds, \$160,000, and park bonds, \$10,000.

MEXICAN DRAWN WORK.

Present Stock to Be Closed Out

At 20 to 33 Per Cent. Discount Before Going to Mexico to Buy Out Winter Goods.

Monday we will begin a great sale of our Mexican drawn work. On October 1 we go to Old Mexico to buy our stock for holidays. Before going we will close out our present stock 20 to 33 per cent. discount. These goods have been imported this summer and are the latest and best designs and on fine linen. We have doilies, all sizes, from 4x4 inches square to 12x12 inches; lace tray and bureau scarfs, 20 inches to 36 inches long; handcloths, one and one-quarter yards square; handkerchiefs, all sizes, from 16 to 35. The following are a few prices: \$5 centers, 36x36, cut to \$4; \$4 centers, 24x24 cut to \$3.25; \$1 doilies cut to 75c, 75c doilies now 50c, 50c doilies now 40c; 25 per cent. off on tray, bureau scarfs and runners. Come early, before the stock is picked over. Sale will last one week. Campbell's Curio Store, No. 235 South Spring street.

WATCHES cleaned, \$5c; mainsprings, 5c; crystals, 10c. Patton, No. 214 South Broadway.

DR. RORER.

"I am convinced Cleveland's is the purest baking powder made, and I have adopted it exclusively in my cooking schools and for daily household use."

SARAH T. RORER,

Principal Philadelphia Cooking School, Editor Cookery Department, Ladies' Home Journal.

Cleveland's Baking Powder is used by all the leading teachers of cookery.

Cleveland Baking Powder Co., New York.

More About the Removal of Dericks From Abandoned Wells. Reports From Coalings — The Santa Fe's Increased Production.

A lease of oil territory that may have an important bearing on the future output of the wells in Los Angeles county, has lately been recorded. The lease is given by B. F. Bowland of Puente to J. M. Quiggle of Los Angeles, and comprises 600 acres of land, for a period of fifteen years. The property adjoins the lands of the Puente Oil Company, and the prospects of obtaining oil on it are said to be very promising. Mr. Quiggle formerly lived in the Pennsylvania oil regions. He proposes to work this territory which he has leased for all it is worth.

In the local field things continue quiet, and without any changes of importance to note. Prices in the field are unchanged at from 95 cents to \$1 per barrel.

Some property-owners on the west side have, in communications to The Times, expressed their gratification over the statements contained in our column last week, to the effect that the city oil inspector would be called upon to report to the City Council the number of wells they are now working, and the number and locality of those which have been abandoned, so that the city oil inspector may make it his business, as provided by the ordinance, to inspect all the derricks over the abandoned wells removed.

They state in their communications that if these abandoned derricks were removed it would tend to improve the general appearance of that side of the city, and would in a great number of cases permit the owners of properties on which these abandoned derricks stand to improve their lots, while at the same time greatly decreasing the danger from fire. Why a derrick should be permitted to remain over an abandoned well is something the City Council would find difficult to explain if called upon to do so. The ordinance, however, states that it is illegal to be and is unlawful for the party or parties who operated the well to leave the derrick standing after having abandoned the well, but so long as there is no one to insist on their complying with the law, it is not likely that any one will do so.

George McMillan, Southern Pacific agent at San Diego, was in the city yesterday.

DEATH RECORD.

MANUS—At the family residence, Mary, beloved wife of John McManus, and mother of Harry, Mrs. Huber and Mrs. George Brewster, died yesterday.

Funeral will take place from the family residence at No. 1145 San Julian st., Tues. day, September 20, at 8:30 a.m. Friends in-

STRONG—in this city, Sept. 18, 1888, Emma, infant daughter of Frank R. and Pearl Strong, a native of Los Angeles, aged 1 year 18 days.

We ship household goods in mixed car lots. The Van and Storage Co., 436 South Spring.

Doctors' Say;

Bilious and Intermittent Fevers which prevail in miasmatic districts are invariably accompanied by derangements of the Stomach Liver and Bowels

The Secret of Health.

The liver is the great "driving wheel" in the mechanism of man, and when it is out of order the whole system becomes deranged and disease is the result

Tutt's Liver Pill.

Cure all Liver Troubles

SPECIAL

Display of Untrimmed Millinery.

The Marvel makes an extraordinary display of Untrimmed Millinery this week.

What's the use of buying a trimmed hat when you can buy the materials and have it made up according to your own ideas for half or less than half what some unbecoming trimmed hat would cost you?

United States Consul Smith, in a report from Moscow, Russia, to the State Department, Washington, says the Spanish vessels which formerly took supplies of kerosene from the United States are now obtaining supplies from Russia, large steamers being sent to Batoum for that purpose.

A notable oil strike has been made two and one-half miles southeast of Newhall, which seems to mean the opening of a new field. The new well is seven miles east of the old Pico Canyon field, where over six miles have been sunk. It is in the Elsmere district on land being prospected by the Pacific Coast Oil Company. It starts out with a production of 100 barrels a day. The well was found at a depth of only 250 feet from the surface. Considerable excitement exists at Newhall on account of this lucky strike as it will open up a large amount of productive territory only twenty-five miles from Los Angeles and connected by pipe-line with the sea coast at Ventura, a distance of forty-five miles.

New companies have commenced operations recently in the Newhall field, and have acquired lands as follows: San Joaquin Oil Company, of Los Angeles, 250 acres; Netleton & Kressman, 185 acres; Sierra Madre Oil Company of Chicago, 320 acres; Enterprise Oil Company of Chicago, 1,000 acres.

As soon as the first oil well was struck in the field, 200 feet below the surface, four new wells were started.

Plenty of capital seems to be available to develop the new district, as ex-Senator C. N. Felton and Lloyd Tevis of San Francisco and J. A. Graves, H. E. Graves, H. W. Hellman and William H. Perrin of Los Angeles are some of the principal men interested in the new field. Oil is found at an unusually high level, and the formation is favorable to boring.
